OBJECTIVE

Full-stack developer skilled in MERN stack, backend systems, and real-time applications, seeking software engineering opportunities to build impactful products.

EDUCATION

B.Tech in Computer Science

2023 – 2027

IITM College of Engineering

Affiliated to Maharishi Dayanand University

SKILLS

Languages JavaScript, Java, Python, SQL

Frontend HTML5, CSS3, React.js, Bootstrap, Tailwind CSS

Backend Node.js, Express.js, REST APIs, JWT Authentication

Database MongoDB, MySQL

AI Gemini API, Generative AI Integration

Tools Git, GitHub, Postman, VS Code, Render, Vercel, Puppeteer, Mapbox, Cloudinary

Concepts DSA, DBMS, OOPs, Operating Systems, MVC Architecture

EXPERIENCE

Talking Crooks IT Pvt. Ltd.

May 2026 – August 2026

Technical Intern

Virtual

- Conducted in-depth business analysis of 250+ companies, evaluating digital presence (website, GMB, social media) to identify service gaps and growth opportunities.
- Compiled findings into a structured analytical report, highlighting patterns across industries and actionable recommendations for outreach strategy.
- Identified a recurring manual process gap in an underserved industry and designed a wireframe/prototype proposing a digital solution.

PROJECTS

- PotholeGuard – Pothole Detection System** — IoT + MERN — Team Project [\[Preview\]](#)
Tech Stack: MERN Stack, ESP32, MPU6050 Sensor, GPS Module
Developing an IoT-enabled road monitoring system using ESP32 sensors and a MERN dashboard to detect potholes and visualize real-time road condition data for maintenance planning.
- Wanderlust – Travel Listing Web Application** – Full Stack [\[Preview\]](#)
Tech Stack: Node.js, Express.js, MongoDB, EJS, JavaScript, Bootstrap, Passport.js
Implemented secure user authentication and session management using Passport.js. Built complete CRUD functionality for travel listings with efficient MongoDB database handling and responsive UI design.
- Resume Genie – GenAI Job Preparation Platform** — Full Stack + GenAI [\[Preview\]](#)
Tech Stack: React.js, Node.js, Express.js, JWT, Gemini API, Puppeteer
Built a full-stack Gen AI job-preparation platform with secure JWT-based authentication and token blacklisting. Integrated Gemini AI for resume parsing, skill-gap detection, and AI-generated interview questions, along with dynamic ATS-optimized resume/PDF generation using Puppeteer.

CERTIFICATIONS

- Introduction to Machine Learning - IIT KGP (NPTEL) [\[Certificate\]](#)
- Oracle Cloud Infrastructure Generative AI Professional (1Z0-1126-1) [\[Certificate\]](#)
- Oracle Cloud Infrastructure AI Foundations Associate [\[Certificate\]](#)
